

Canyon Low pH Presoak

Features & Benefits

- Low pH (acid) presoak
- Loosens Dirt & Grime
- Effective at removing organic material such as dirt, mud, debris, soot and water spots
- Allows for Better Soap Contact During the Wash Cycle

Canyon Low pH Presoak helps break down dirt, soot, dry mud, and most kinds of inorganic matter on the surface of your vehicle. Acidic presoaks are especially effective for removing inorganic films from windshields, tires, and the lower parts of vehicles. It's best used in combination with an Alkaline presoak.

DIRECTIONS FOR USE

- In Automated Car Washes or Stand-Alone Services
- Can be used through pressure washers, foam guns, touchless wash tanks, in wash buckets and brush systems.
- Dampened vehicle with water, then apply Canyon Low Presoak starting at bumpers to Top of Vehicle
