- Pump purging system improves results by eliminating soil and chemical carryover during rinse cycle.
- 1 peg rack included.
- Built-in prime switches.
- Built-in instant start.
- Door safety switch makes operation safe.

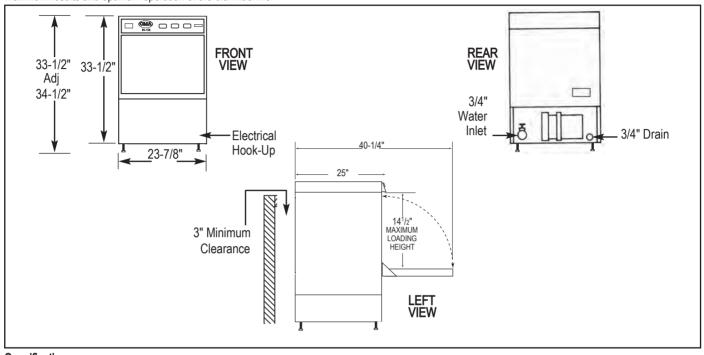

High Temperature Sanitizing Undercounter Dishwasher/Glasswasher

WARNINGS:

- Plumbing connections must be made by a qualified service company who will comply with all available Federal, State, and Local Health, Plumbing and Safety codes.
- CMA recommends utilizing a water softening system to maintain water hardness measurements of 3.5 gpg (grains per gallon) or less. This will assure maximum results and optimum operation of the dishmachine.

Summary Specifications: Model H-1X CMA undercounter high temperature sanitizing commercial dishwashers meets ETL and NSF safety and sanitation standards... The model H-1X is constructed entirely of stainless steel. Each unit automatically washes, rinses and sanitizes food service wares in standard 19-3/4"X19-3/4" racks. H-1X comes standard with upper and lower spray arms. The H-1X incorporates an innovative Dump & Fill cycle technology to drain the wash water and refill with fresh water prior to the rinse cycle ensuring the best results possible.

Advisory: CMA does NOT endorse "Tankless On-Demand" water heaters for use on CMA Dishmachine products. CMA DOES endorse, and highly recommends, the standard "tank" style water heaters, sized properly to handle each particular facility with its water heating requirements.

^{*} Excludes 30 second NSF load/unload time
