

Power Prep

Power Prep, a low foaming medium alkaline detergent is designed for pressure washers, vehicle bays and drive through tunnels and is versatile enough to be used as a presoak, detergent or conditioner. Its penetrating action works with cold or hot & hard or soft water to quickly remove dirt, grime and traffic film.

DIRECTIONS FOR USE

- Mix product to water ratios depending on soil conditions
- Apply with hot or cold water
- Allow detergent to soak and lift
- Rinse surface after cleaning from top down

PRODUCT RATIOS

User Ratio: 1:80 parts water or 1 ½ oz per gallon
