

## Super Liquid Detergent

### Features & Benefits

- Soaking Detergent designed to loosen & clean
- Effective at removing organic material such as mold, mildew, dirt, debris, insects and bird droppings
- Multiple uses include
  - ✓ Exterior Walls
  - ✓ Concrete Floors
  - ✓ Farm Equipment
  - ✓ Engines
  - ✓ Drilling Rigs
  - ✓ Mining Equipment
  - ✓ Most hard surfaces

A super-concentrated alkaline presoak for rugged conditions. An excellent detergent system, coupled with chelator and alkaline technologies, creates a synergistic presoak that will clean the toughest of conditions. This product will foam with hard or soft water.

#### DIRECTIONS FOR USE

- Mix product to water ratios depending on soil conditions
- Apply with hot or cold pressure washer
- Allow detergent to soak and lift
- For extreme soil buildup and hard water may require heavier concentrations
- Rinse surface after cleaning
- Wash from bottom up
- Rinse from top down

#### PRODUCT RATIOS

For light or normal soil conditions dilute to one part detergent to 60 parts water. For heavy soil conditions dilute to one part detergent to 40 parts water. Extreme soil buildup, hard water, or difficult cleaning conditions may require heavier concentrations; longer soak times prior to washing.
