

Prestige Dishmachine Sanitizer

Features & Benefits

- Designed for Low Temp Machines
- Chlorine Based
- Fast Acting
- Economical
- Safe on All Wares
- Made in the USA

Prestige Sanitizer is chlorine based, formulated for low temp dishmachines and glasswashers. Coupled with 120° degrees Fahrenheit water, Prestige Sanitizer is fast-acting. Its stable formula ensures a long shelf live, resulting in the required efficacy ratings of 50-100 ppm. Properly maintained squeeze tubes aid in consistent levels of required sanitizer.

DIRECTIONS FOR USE

- Place pickup probe in jugs or pails for touchless dispensing
- For use in glass washers or commercial dish machines
- Use of PPE recommended while handling product

PRODUCT RATIOS

Contact National Purity as ratios vary based on water conditions.
